Birdy Short Arm Wall

Design by: Birger Dahl

The Birdy Short Arm wall light was designed by Birger Dahl in 1952, the midcentury modern style he achieved at the height of the important design movement expressing the gestalt of the era to a tee. The Birdy Short Arm wall light comes in off-white or matt gray with a satin nickel finish and matt black with a brass metal finish. The inner shade is the same color as the exterior.
