INSTRUCTIONS FOR USE

- It must be charged before an initial use.
- During charging, the indicator light is red and it will turn green after fully charged.
- Press ON/OFF button to turn on or turn off the lamp.
- Standby mode is recommended for a long time without use:
Press ON/OFF button for 3 seconds when the lamp is on, the lamp will enter standby mode after a row of lights at the bottom of the lamp flash 3 times, meanwhile the remote control function will be invalid if the lamp comes with remote control. Then press ON/OFF button, the lamp will enter normal mode, and the remote control function will be valid.
- In the condition of low battery, the lamp will be off after a row of lights at the bottom of the lamp flash 3 times. Please charge the lamp accordingly.

SPECIFICATIONS

- 99 LED flickering
- USB charging cable
- LED power consumption: 0.2 W
- Recommended operating temperature: -5 to 45°C
- Warranty: 2 year

Li-Ion Battery: 2400mAh

Li-Ion Battery: 4800mAh

COMPLIANCE

In the European Union (in accordance with Directive DEEE 2002/96/EC), and also in other regions, you must return this product to a recycling collection point at the end of its life. As this product is not ordinary household waste, managing its end of life helps us protect our environment and limit the use of our natural resources.

We declare that this product complies with the following European directives: RoHS (2011/65/EU), EMC (2004/108/EC).

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
